Registering to Compete

- Teacher leaders must login to the TAFE website, www.tafeonline.org, select their **Region registration** which will take them to the link to register for their region conference and competitive events. This must be done by the deadline set by the region in which they are competing.
- For state, teacher leaders must login to the TAFE website and register for the state conference and register for each event. Registering for the conference does not register you for the events. Each competitive event has a separate registration form.

Day of Contest/Competition

- Dress Code and Statements of Originality forms must be completed and brought with you to conference. These must be kept in the possession of the teacher leader in case of question or challenge to the dress code.
- Students and teacher leaders will be required to sign the dress code information on the back of their name tags.
- All competitors are required to check-in on the day they compete. Each day of competitive events, there will be an assigned time to check-in. At the end of the check-in time, students who have checked in will be shifted up to earlier open time slots (left open by students who have not signed in) & times will be posted on the doors. Those who register late will be moved to the later time slots. **NO STUDENTS WILL BE DENIED THE OPPORTUNITY TO COMPETE**; provision will be arranged, but they must arrive before the last person competes. Judges will not be expected to wait around to see if competitors show up.
- Competitors will be assigned a time to compete. They will be expected to arrive 15 minutes before their assigned time.
- If there is a scheduling conflict, competitor must inform the judge at check-in so accommodations can be made.
- If the competitor is not there at his/her scheduled time, the next in line will move up to that time slot.
- All competition requiring AV will have a screen, outlet, projector, table, and internet access for the competitor's use. Competitors must bring their own laptop or tablet and appropriate cabling to connect the projector to their device.
